DANISH WARSHIP SALUTES THE ROYAL PARTY

ANCIENT CAPITOL OF HAAKON THE GOOD, WHERE NORWAY FIRST BECAME A NATION IS ONCE MORE SCENE OF ROYALTY--KING, QUEEN, AND SON ARE ESCORTED TO PALACE THROUGH CROWDS OF PEOPLE.

TRONDHEIM June 19.—King Haakon, the Queen and son rest tonight in the ancient capitol of Haakon the Good, where Norway was first created a nation. They arrived this evening on the gunboat Heimdal, amid scenes picturesque and befitting the occasion. A few minutes after 6 o'clock the guns of the Danish warship Hekla booming out a royal salute, gave the crowds the announcement that the King's yacht was approaching. The granite walls of the Fjord had not ceased echoing before the Heimdal rounded the promontory. The crowds waited silently until the

yacht entered the slip when they broke into the bark that expresses Norwegian enthusiasm. The first figure discernable was little Crown Prince Olaf held high above the rail by his nurse and showing a precocious interest in the scene. The King soon joined the prince and the crowd barked out another cheer, which was renewed when Queen Maud appeared. The members of the royal family speedily landed and escorted by troops of cavalry, drove to the palace through cheering crowds. The people surrounded the palace for hours and cheered the King and Queen when they appeared at the windows.

QUEER FREAK OCCURS AT BIRTH OF CHILD

Child is Born With Caruncle on Its Eyelid Containing Diminutive Child.

VICTORIA, June 19.—A seemingly well authenticated account of a strange birth is reported by Tokio Ashia. A boy was born to a woman of Yamato province, and had a caruncle on his left eyelid which grew rapidly, becoming larger than a man's fist. The child was removed to the Osaka Hospital, and the caruncle cut and it was found to contain a diminutive boy with a complete set of limbs and fingers. The older boy suffered little from the operation. It was not stated whether the other child lived.

CONTAINS NO ALCOHOL.

NEW YORK, June 19.—Hexamethylentramin does not contain alcohol. Judge Platt, in the United States Circuit Court has decided this for the benefit of an importer. The question caused the customs authorities a good deal of trouble. They said they did not know just what the stuff was. It comes from Germany. Collector Stranahan was convinced that it contained alcohol and he demanded duty on the basis of 55 cents a pound.

Hexamethylentramin is known also as urotropine, aminoform, uritone, and formin.

JAPANESE EASILY CRUSH THE KOREAN INSURGENTS

VICTORIA, June 19.—The steamer Empress of China brought further advices today of the Korean revolution. The insurgents lost heavily at Hongju. When the Japanese blew up the city gates, street fighting took place, but the Koreans were helpless with obsolete arms against modern Japanese arms.

Two Japanese were killed and two wounded. 85 insurgents were killed and 175 taken prisoners, among them a number of wealthy and influential men who were to be dealt with according to military law. The rebellion has spread to four provinces. Unrest is general throughout Korea and fugitives are flocking to the defensible centers.

NO AGREEMENT ON RATE

WASHINGTON, June 19.—From present indications the conferees on the railroad rate bill will not reach an agreement until some time next week, which will probably be the last week of the session. The purpose with holding the report it is said is to avoid a repetition of the debate in the senate which followed the recent report of the conferees. The conferees have had with various members of the house and senate, indicate that only three amendments are giving trouble. The principal one in the pipe line amendment. One objection to this amendment is that it would injure the lumber trade by making useless a number of small roads which were built for the sole purpose of getting lumber to the trunk lines.

ELECT COMMISSION CHINA FOR CHINESE

Agrarian Commission of 99 Is Very Unweildy. Patriotic Movement Is Gaining in the Orient.

STRONG MEN ARE CHOSEN

Election of Commission Marks Second Stage of Agrarian Legislation in Russian Lower House--No Parliamentary Recess.

ST. PETERSBURG, June 19.—The election of the agrarian commission of 99 today marks the second stage of the agrarian legislation in the lower house, but the unweildy size of the commission and the reservation of eight places for members who have not arrived, gave slight prospect of a speedy presentation of the draft of the laws. The commission consists virtually of the strongest men in parliament and the make up is considered moderate. The Metropolitan Antonius tonight assured the members of the lower house that the government did not intend a recess of parliament against the will of the majority.

VICTORIA, June 19.—General Dessimo, a noted Russian military officer, who was stationed at Shanghai in charge of the Russian intelligence bureau during the war, arrived today en route to St. Petersburg. In an interview the general stated he expected another Chinese outbreak before long, not so much a rising similar to the Boxer movement as a general patriotic movement to free China from foreign interference and before he left Shanghai, this movement was assuming an alarming phase.

Both were taken ashore on a tug.

According to eye witnesses, Newell refused to drink with Hill. Later he obtained a shotgun and shot his victim in the back. The shooting occurred on Sunday.

WITHDRAW FROM FEDERATION. SAN FRANCISCO, June 19.—The Coast Seamen's Union has withdrawn from the City Waterfront Federation, the supposed reason being to relieve the Federation of the necessity of participating in the industrial troubles. Two other unions affiliated with the seamen will probably follow suit.

PHILADELPHIA, June 19.—Reaffirming their allegiance to the principles of the republican party, the National League of Republican Clubs today ended its convention. Resolutions were adopted paying tribute to John C. Fremont, the first standard bearer of the party, Abraham Lincoln, the first republican President, and Theodore Roosevelt, the present leader, and the "World's first citizen" who "has gained not only the respect and love of his country, but the esteem and admiration of the whole of mankind." Protective tariffs were endorsed and the party is felicitated on its record on the gold standard, rural free delivery, irrigation of arid lands, the Isthmian canal and other subjects. Opposition is expressed to the trusts and to the inequality which permits one-twelfth of the voters of the country to wield one-quarter of the national legislative power. Continuing, they declare the democrats of at least eleven states should be deprived of their unfair preponderance of power and that the political rights be served to every voter, whether white or black.

ANARCHISTS IN PORTLAND WILL BE INVESTIGATED

PORTLAND, June 19.—Acting under instructions from the Federal Government at Washington, Inspector Foster of the Secret Service is investigating the alleged anarchistic society which has been unearthed in Portland. It transpired today that the inspector last night seized a number of pamphlets printed in the Polish language found at the headquarters of the society. The afternoon, a Pole named M. Lopaski, who has been one of the aggressors in the attack against the local order, appeared at the police station with a statement that his life had been threatened by several of his countrymen and informed that within three days he would "be killed like a rat." Lopaski's statement was corroborated by three of his countrymen. The man was turned over to the secret service agent, when he repeated his story without any conflicting statements.
